Problem solving and planning can be both challenging and fun. Children learn to develop and try out essential skills best alongside a steady, calm and connected adult We can use our problem solving skills to help children make sense of their experience and put meaning to it whilst at the same time managing big feelings. Here are some creative activities that you can use with your child, aged 3 to 7 years.

Tuesday	Plan, design and build your ideal house. <ul style="list-style-type: none"> <li>• How many rooms would it have, who would live there?</li> <li>• What would be your house rules?</li> </ul> You could build it out of boxes, cardboard, empty household resources, Lego, virtually on a laptop or draw it.
Wednesday	Dreaming that we are in/at... <ol style="list-style-type: none"> <li>1. Someone chooses an imaginary place to go to (for example a school) but keeps it secret.</li> <li>2. Players then suggest things to bring and have to guess where it is they are. So “tent” would be wrong – no tents in school. But a “notebook” is right.</li> <li>3. Winner gets to choose the next ‘dream’ destination and maybe choose a forfeit for the loser.</li> </ol> You could play this over skype with your friends!

If they don’t stop you, you keep going.</li> <li>3. Make the story as easy or as tricky as you like.</li> <li>4. Swap over!</li> </ol> Choose a fun, safe and agreed way to stop the story when you hear the silly.
