Summer Second Half Term 2021

## SPORTS DAY RESULTS

1ST -

AQUA/WATER—4262 POINTS

2ND -

VENTUS/AIR - 4213 POINTS

3RD -

IGNIS/FIRE - 4196 POINTS

4TH -

TERRA/EARTH - 4067 POINTS

## PUPIL WELLBEING SURVEY

Thank you so much to everyone that completed the pupil wellbeing survey (year 3,4,5). Wellbeing is a priority at Engayne and the survey will help us create an action plan in order to support staff and pupils in the upcoming academic year. The survey highlighted some areas where we plan to make improvements but has also shown the areas in which Engayne succeed. The children said that they feel they can make a difference to each other and that they know how important it is to talk about their feelings and emotions. The results emphasised the importance of the Engayne community and how we can all support each other.

The last two years within school have been extremely challenging for everyone. The children have been fantastic and adapted to everything we had to change.

They have been just a credit to you as parents and to the Engayne community.

Hopefully as we try to return to some sort of normal in the coming months they will also adapt to how things used to be.

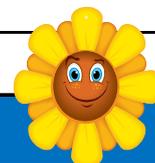

We really hope that you all have a lovely summer break and get to do some of the activities we have missed.

Some summer activities will be sent out as the children do really need to continue with some writing and fun tasks.

Best of luck to our year 6 pupils and we say goodbye to some families who have been at the school gate for many years!

I am currently planning how September will look for the whole school and I will communicate this to you as soon as I am able.

Regards Mrs Sankey

## Reception

In Reception we have been learning about Superheroes.

We made our own masks and Cd res.

by Louis and Isla Avon

by Sofia

## Year 1

In Year 1 we have been learning about Florence Nightingale and Mary Seacole. They were two inspiring nurses who helped injured soldiers during the Crimean War.

By Callie IB

## Year 2

We have been working hard in year 2 this term. We have been growing plants to see what is important for it to grow. We had a virtual trip to Leigh on Sea and compared the beach there to St Lucia. It has been a great half term. by Ava 2M

## Year 3

We started this term with a Roman re-enactment day and recreated the Roman invasion in Britain.

In science, we learnt about endo skeletons and exoskeletons. This led us onto learning about Anthony Comstock and how he makes human sculptures. We even used mud rock just like he does!

We have enjoyed writing a newspaper report about flying frogs from the book Tuesday. It has been great to go outside to sing and learn our dance morning dance. We had so much fun choreographing our routines!

George and Sophia  
3N

## Year 4

This term we learnt about right angles, obtuse angles and acute angles. We also learnt about electricity. We made circuits and made the lightbulb light up. We learnt about the Ancient Egyptians and what they did to survive. This term a nice man came in to help us spray paint a mural, and last Friday it was break the rules day, which we all really enjoyed.

Grace and Joe

85

## Year 5

In year 5 we have done loads of fun things such as lots of dance practice. We learnt how to use excel and formulas.

In P.E we have done rounders, cricket and how to throw a ball properly in rounders.

We've learnt about South America. It was all about the different countries, about what is actually in the continent like the Amazon Rain Forest.

In Science we have been learning about Pollination and how it happens!

In Maths we have used Logo to create pictures by writing a formula to create the pictures. We have been using Excel to draw and add fractions with a formula.

We have also been reading the stories of Winnie-the-Pooh.

by Andrew and Florence 5R

## Year 6

Over this term in Year Six we have been learning about

- Writing based on a picture. We had to describe a picture using our imaginations based on what was there
- Pop art. We have been focusing on Andy Warhol and Roy Lichtenstein's works of pop art. By using vivid colours, we can combine them to create effective art.
- Dance practice. We have been learning the dance to the song 'Dynamite' by Taio Cruz.
- Maths. In Maths we have been learning co-ordinates in four quadrants, reflecting shapes, translating shapes and reading line graphs and pie charts.
