FORM 3B

Parental agreement for school to administer medicine

It is important to keep the administration of medication to a minimum and parents are requested to consider the possibility of administering the daily doses out of school hours (If the medication requires 3 doses per day, please administer outside of school hours). If this is not possible the following consent form must be completed

The school will not give your child medication unless you complete and sign this form, and the school has a policy that staff can administer medicine.
