28th November 2023

Dear Parent/Carer

Puzzles Club – Year 4

We would like to invite your child to become involved in our puzzles and games club. This club will help enhance your child's problem-solving skills whilst having fun at the same time.

Puzzles club will run after school from **3.20pm – 4.20pm**.

The children are to meet outside 3T. They may bring their own pencils, but this is not compulsory.

We will be running two clubs over the Spring term. Your child (if successful) will be notified of which club they need to attend.

The club will run on the following dates (every **Tuesday** – dates below).

Club 1 will run on 9th January, 16th January, 23rd January, 30th January and 6th February 2024

Club 2 will run on 13th February, 27th February, 5th March, 12th March and 26th March 2024

The children will be learning to solve a range of different puzzles including Suduko, Logic Problems, Boggle word games and Wordle.

Once the session has finished, please meet your child in the blue fenced area of the KS2 playground where an adult will wait with them until they are safely collected.

If, for whatever reason, your child cannot attend a particular session please ensure that Mrs Tudor is informed beforehand, as a register will be taken on arrival.

Should your child be successful (there are only a limited number of places) we would ask for a contribution of one children's puzzle book, which can be using during our sessions.

Please log into SQuid to show your child's interest in joining the club; visit offers, make a nil payment and answer the questions.

Yours sincerely,

Mrs Tudor
Year 3 Teacher
